Re: Jadotte v. Ryder  
07 CIV. 5669 (DLC)  
Our File No. DRT 23502

Honorable Judge Cote:

Please accept this letter as the joint request by the parties to this case to extend the time for fact discovery in this case. Despite the best attempts of the parties to this case, we have been unable to secure the attendance of the non-party police officer up to this time. We are currently sending out a new subpoena for that non-party. We have tentatively arranged depositions of the parties for this case for early January, 2008. However, the present schedule for this case calls for fact discovery to end on December 7, 2007.

Accordingly, the parties jointly request that the period for fact discovery be extended to January 31, 2008. We have selected that date because there is a settlement conference scheduled before Magistrate Judge Ellis for that date. We have made no prior applications for this relief.

Thank you for your consideration of this request.

*On the consent of the parties, fact discovery  
may be extended so long as there is no  
extension of the March 21, 2008 date  
for the Pretrial Order.*

DSH/mr
